Leadership & CEE Student Thoughts!!!

We asked a few students on who they believed to be leaders they admire and here is what we heard back!

Mr Waqar Ahmed **ADOLPH HITLER**

"During World War 2, Adolf Hitler took leadership to a level than never had been reach before his time. He combined charismatic and inspirational leadership style to try to fulfill a dream of death, corruption and take-over. Hate it or love it but one has to admit Hitler accomplished a unique leadership style of his own and deserves credit for the skills he required but not the actions he sought."

Ms. Subashini Welgama **MOTHER TERESA**

I have never seen her, but I am influenced by her personality. I am longing to do at least one thing or something closer to what she did? She displayed peace and

unselfishness and her teachings attracted a many nations to her heart and they admired her charm character. She has changed the lives of millions of people by word and by deed.

Ms Maria Fatima Da Cruz **OPRAH WINFREY**

To me, Oprah has been a true inspiration for women especially all around the world, those who have suffered greatly. No woman in my opinion has been able to do

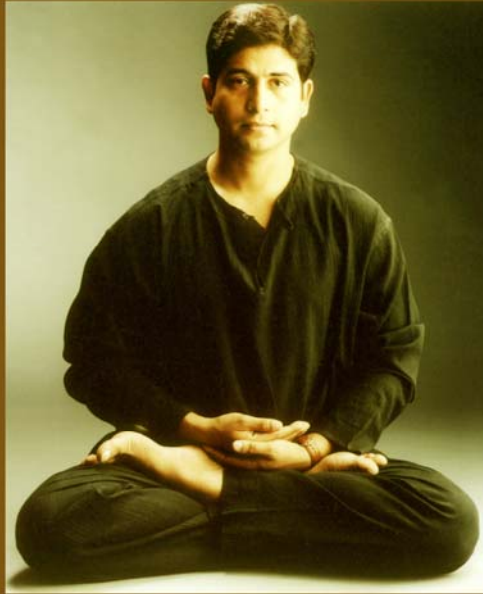

what she has done. Not only is she a good leader, but she is also a great person and

listener. She is generous at heart and sympathises with her audience, which is rare in many leaders. Oprah is truly gifted, not only has she reached to her full potential, but she did it with dignity. I admire her because, she gave up a life she could have, a husband, children, a whole family, to help other people and their problems, for me that is someone with great courage. She is courageous and selfless, and it shows through her work and that is why I think she is a good leader, because she knows her priorities and nothing can come in the way.

Bharat Thakur's Artistic Yoga

Experience a Unique Harmony of Body & Mind

Why do you call it Artistic Yoga: "Today if you ask any yoga practitioner what type of yoga they practice, you will hear names like Hatha, Ashtanga, Power, Viniyasa, Kundalini yoga etc. Some practice just a few breathing exercises and others just sit and try to meditate. This has happened because most of the teachers have learnt or selected only a small portion from the entire science of yoga that serves their purpose, and they propagate only that aspect of yoga. My aim is to revive the whole science in its entirety, hence I have given it a name, which is open, creative and does not restrict one to a specific way of performing yoga. My yoga is very versatile, spontaneous and non-repetitive. My yoga teachers are thoroughly trained in every aspect of yoga and every class of Artistic Yoga leaves you feeling energized and relaxed at the same time." – **Bharat Thakur**

OFFER!!! CEE students can now avail 2 free sessions of Yoga at Bharat Thakur Yoga Centre. Please carry this page print out.

Developed by Bharat Thakur, **Artistic Yoga** is a unique and powerful system that affects the body like no other form of exercise does. By using ancient yogic techniques involving postures combined with breathing (*asanas, pranayama, bandhas, kriyas*), innovative partner stretches and cardiovascular training, *Artistic Yoga* works on the human body at every level – from the physical level, where flexibility, strength and endurance are the primary goal, to the mental and spiritual levels where awareness of the body, alertness and meditation work closely to bring about a complete transformation.

Artistic Yoga is a dynamic system of exercise that depends not on rules and a rigid structure, but rather on an improvised and spontaneous approach that is fun, enjoyable and at the same time focused. **Artistic Yoga** needs no prior experience in yoga. It is suitable for every kind of person, of any age and any level of strength or flexibility. In a corporate context, the techniques are adapted to suit the specific problems that employees have to deal with at work.

Artistic Yoga brings about amazing benefits in a relatively short span of time:

- stress-relief
- improved concentration
- overall relaxation and a calmed state of mind
- weight loss and improved body shape
- toned muscles
- increased immunity towards diseases
- reduction of gastric problems
- reduction in backache
- heightened energy levels throughout the day
- harmonized mind and body.

Ms Payal Bajaj has joined CEE as a full time faculty in Fashion Design.

Ms Deepali Tulpule has joined CEE as the Manager Corporate Education.

Mr Siamak Zamani has joined CEE as the Faculty of Interior Designing.

Question of the Month

How can I do a "dual diploma" in HR and Business?

Well, students who have completed either of the Diplomas – EBM or the EHRM may opt to register for the other diploma and complete the new units.

In either of the cases, students will need to sit for 2 modules and can claim the second diploma.

E.G. students studying the EHRM can claim the EBM as well upon completion of the Marketing and Finance module.

For more info email me on info@cee.ac.ae
